EXECUTIVE SUMMARY

Boutrose Technics is a registered Limited Liability company that delivers a wide range of services which includes Project Management, Construction Management, Building Construction, Civil and Structural Engineering, Construction Management, Highway Engineering, Geotechnical Engineering, Jetty and Pile Foundation, and Mechanical & Electrical Works.

We also offer a design and Build Package to suit the specific needs of our Clients. All works are undertaken using the same professional approach and attention to detail.

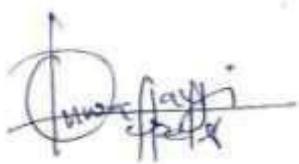

Our record of customer satisfaction will continue to grow, as we have recently expanded our ability to service our client's needs by providing quality Construction and Supply chain management (SCM), Health, Safety and Environment, Site development, Project Management and Design/Build services.

We have a team of qualified and seasoned professionals, with several years of experience in construction industry. We guarantee a quality and safe service delivery.

As a service organization, we strive to meet our service guarantees as well as our client expectation. We deliver promptly and efficiently. With a team of young, visionary and resourceful engineers, Boutrose is building a proud history and strategizing his market positioning in government and infrastructure sectors by being a low-cost, high-efficiency and absolutely reliable service provider.

One of our company's strongest personality traits is commitment. We are committed to our clients, our team members, and our industry and to each other. Commitment is a trait that all the best team and their members possess. Offering a comprehensive range of construction services enable us to tailor a delivery system which matches our client's needs, goals, and budget.

Boutrose commitment to these services adds value to your project and helps ensure its success. As we move on in the business, we are confident that the year ahead will be our biggest and best year to date. We are proud of our entire team. We can't wait to see the results and the satisfaction of our new and existing clients.

Management

Introduction

BOUTROSE Technics Limited partners and consultants are highly qualified professionals in their various disciplines with proven years of experience. Notwithstanding these qualities, we are equally committed as a forward-looking company to staff development policy based on professionalism and specialization. Based on our qualitative management, we are able to categories the expertise and capabilities of personnel attached to our company.

Boutrose is emerging as one of the most respected construction firm in Nigeria. In all our past projects, in the arena of commercial and institutional construction, we have proven our ability to take on large, complex projects and complete them on time, on budget, and at the highest levels of quality.

Our growing reputation for excellence, resourcefulness and responsiveness is no accident. It is a natural consequence of the values that have guided our company since its founding. These include the energetic enthusiasm for what we do. Sensitivity to the needs of our customers, a willingness to accept total responsibility and a craftsman like pride in knowing that what we build will last for generations. While some in our industry might find these attitudes old-fashioned, we believe they are why knowledgeable business, organizations and architects throughout our region place their confidence, and their trust in **Boutrose**.

Since we began operations, we have contracted several construction projects throughout our geographical region. We attribute this success to several factors, but foremost among them is our commitment to satisfaction of our customers. To produce a quality-crafted facility, we closely manage each project to completion, acting at all times in the best interest of the owners.

Boutrose believes in delivering unparalleled construction management service tailored to our customer's unique and individual needs.

Boutrose's preconstruction service centers around „doing our homework”. We pride ourselves on becoming involved in all aspects of your project. Lending our construction experience to the design team as well as understanding and managing the complicated municipal approval process. The foundation of our services is based on our fully-computerized Estimating Department. Through state-of-the-art AutoDesk technology and information systems, we continuously update our database of many vendors and subcontractors, which allow us, develop precise information o costs for the design and development of virtually any construction project.

Our construction service is based on “hands-on” project management. Our strength is the ability to schedule concurrent short and long term construction activities, and then effectively manage both for the timely project completion. We consistently meet and beat our customer's construction deadlines and quality is never compromised.

Today Boutrose have over 10 technical partners, which includes experienced professional personnel and a field force of over 80 journeyman carpenters, apprentices and labourers – all focused on one goal, that the services provide exceed the expectations of our customers.

We are, after all, a service organization. We believe that there is no better proof of commitment to service than a project which demonstrates the integrity of its builder.
What we believe is uniqueness in our commitment to honesty, concern for the customer, timeliness and a quality project.

The continued expansion of our company will create new levels of management that will be filled with personnel with proven skills. We further intend to enhance their skills through training from both internal and external sources.

Our Objectives

Our main objective is building an outfit that relates with its client by rendering quality and affordable services anchored on integrity and sound professional ethics and principles, both at the design and execution stages of all projects.

We, as an organization, are ready to stand out as a reference point in the construction industry. This we will do by rendering quality services that will satisfy our clients' aspirations- economically, socially and otherwise.

We are also building an outfit that will evolve an efficient and low cost approach to project development and management with strict adherence and compliance to laid down professional ethics and procedures both in the design and execution stages of every project.

Our Vision

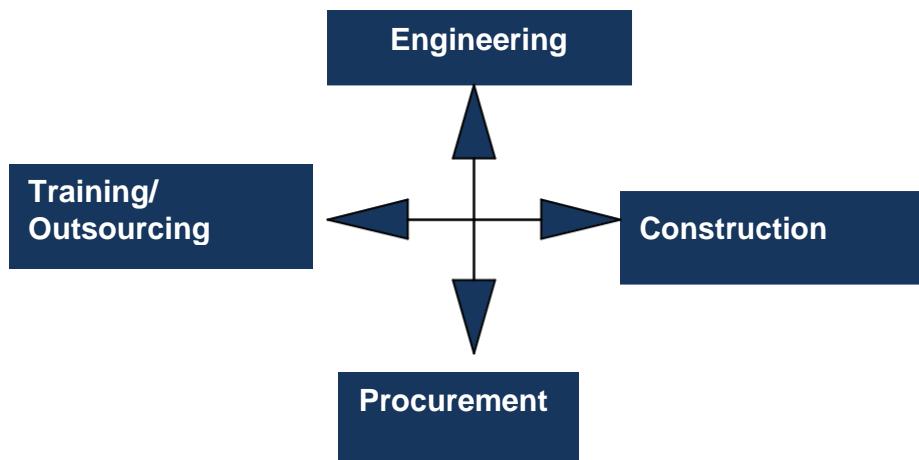

If construction were easy, there will be no need for a company like **Boutrose Technics**. Today and tomorrow, we work with our clients, wherever they are to bring construction to the world.

We will continue to contribute their success, through our constant customer focus and our integrated and sustainable project approach. As the industry reference, we will demonstrate the knowhow, the commitment and the inspiration to help all of our partners push further to achieve their goals. This is our vision and above all, it is our passion.

Our Services

BOUTROSE Technics Limited is a full service construction company specializing in commercial and institutional construction. We offer construction services as well as preconstruction, construction management and design/build services. Boutrose will perform work on both a negotiated and a competitive bid basis. We provide a complete range of services including:

- Building Construction
- Project Management and Construction Management
- Renovation and Maintenance of Existing Building
- Landscaping.
- Architectural, Structural Engineering, Quantity Surveying and Building Consultants
- Roads and Drainage Works.
- Geotechnical, Pile Foundations, Jetties and Shoreline Protection
- Mechanical & Electrical Works

Building Construction

BOUTROSE TECHNICS LIMITED currently provides the following building core services:

- Building Surveying Consultancy
- Building Surveying Projects
- Cost Consultancy
- Project Management

Its scope of work covers the whole spectrum of building and construction consultancy, technical, due diligence, management, compliance and also incorporate a wide range of building types: commercial, industrial, retail, residential, public and historic.

Page
| 6

We take an active role in setting the standards within the local market and activity seeks to adapt its skills to meet the consultancy changing needs of its clients. Our work is not only praised for its high standards and quality, but also for a forward-looking approach to changing times.

Project Management

Planning a construction project takes the consolidated effort of several professionals, each with varying experiences, knowledge and expectations. We capture the vision of these parties and unite them as integrated team.

Boutrose is committed to understanding the needs and expectations of all the players in the process and dedicated to creating an approach that allows all team members to succeed.

As project management leaders, we identify the most logical path to achieving success and make certain that each team understands their responsibilities to the project team. We identify the time requirements necessary to complete responsibilities and identify outside factors that influence these critical tasks.

Success is maximized when there is a clear understanding of how actions impact the success of the entire team and ultimately, the project.

Renovation and maintenance of existing building

We are established and experienced maintenance, construction, renovation and Repair Company specializing in providing all the services required for our clients. We pride ourselves in providing a high standard of workmanship at reasonable prices to ensure our customers get the best value from our services.

We are the choice contractor for many letting's agents throughout the region and hold contracts with many large businesses

Our renovation and maintenance services includes: Bathrooms, carpentry, Decorating, Electrical Extensions, Flooring, Kitchens, Plastering, Plumbing, Roofing, Windows and doors, etc.

Landscaping and Environmental Services

Our broad range of professional skills and services we offer is a key feature of the business. As such we can deliver a greater depth and breadth of expertise that can deliver better results and a hassle free construction programme for both the consultant and client. Our services include – project budgeting, estimation, project management, all aspects of landscape construction, minor civil works, re-vegetation works, rehabilitation works, wetland construction and maintenance.

We “promise” to deliver on time on budget and to the specified quality, however clients and to the specified quality, however clients and consultants should rightfully expect this to be given, to be a prerequisite of making the tender list. And being a medium sized operation each director takes a hand on approach to the business resulting in better outcomes for consultants and clients.

Our team of over 2 landscape professionals includes experienced estimators, project managers which are backed in the field by highly trained foremen and landscape staff with many years experience in the industry.

Architecture and Structural Engineering

BOUTROSE TECHNICS LIMITED has had privilege of building some of finest central homes working with professionals for private and public use.

We believe projects benefit from a teamwork approach and prefer being involved with the owner and architects from the early stage of design. We have built a reputation from thorough cost estimates and negotiating the best terms for the owners with some of Lagos best subcontractors and suppliers. Before we begin a project, it is been thoroughly estimated and prepared. Consequently, our projects are well managed and tend to run smoother with less interruptions and surprises. We emphasize control as well as excellence and keep our clients' satisfaction and corresponding referrals as benchmark of our success.

At **Boutrose**, we are picky about detail of your construction project. In fact, our reputation for excellent construction and unique residential additions has made us the choice of every best architect who insists on the highest level of attention to details. From the initial planning stages to the final polish, we offer a level of construction excellence that is seldom seen in the industry. And because we pay attention to details, you and your project receive the personal touch from all our employees.

Quantity Surveying

Boutrose has professional Quantity Surveyors personnel, whose operations are guided by the rules and guild lines of the Nigerian Institutes of Quantity Surveyors.

As a company, we are committed to professionalism by providing accurate, timely service to our clients. As a service provider, we have documentation to deal with technical administration and human factors, which can affect quality of our service.

These documents are internally and externally designed.

Our services follow the standard mostly does the former e.g.:

- The standard System of measuring Builders work
- Model preambles for Trades
- Forms of Contract
- Standard Preliminaries

Highway road and drainages

Boutrose is well experienced in road and drainage construction and generally in all aspect of building and civil engineering works: these include:

- Building roads, highways and bridges construction
- Flood/erosion controls/culverts and drainage structures
- Water supply both surface and sub-surface
- Coastal structure including domestic, commercial and still structures
- Renovation and maintenance works in both civil and building engineering.
- Construction of septic tank and evacuation of sludge.

Geotechnical Engineering, Pile Foundation, Jetties and Shoreline Protection

Boutrose Geotechnical and marine services involve In-situ and Lab Soil Testing, piling, basement constructions, shoreline protection and generally more complex structures. Restricted site services involve working underneath, within or beside an existing structure. These services include: Underpinning, foundations, basement construction, jacking and moving buildings, Restricted Access piling, mini piling and a range of piling and foundation work for the rail industry.

Quality Assurance

BOUTROSE TECHNICS LIMITED's Quality Assurance Objective is to ensure that during the course of the execution of our activities, we employ the use of modern tools and equipment, result – oriented personnel and good management to provide efficient and quality services to our clients. As a result, our policy is to:

- Ensure Total Quality Management (TQM).
- Satisfy customer's expectation.
- Audit and review quality control methods regularly.
- Ensure product quality improvement.
- Maintain efficient and complimentary quality services personnel.
- Train all employees in quality assurance practices and procedures.
- Have a quality assurance focal point and representatives.
- Hold each supervisor accountable for ensuring compliance with this policy.

Management Structure

Boutrose Technics Limited is managed by indigenous professionals of various specializations but relevant disciplines. The management team is able supported by competent and experienced technical staff with up to date knowledge of today's information technology. We are highly experienced trained, knowledgeable, management and technical staff from various giant and famous construction company with long years of experience in the civil construction work/projects.

The management structure of **BOUTROSE TECHNICS LIMITED** is broadly divided into:

- Administration,
- Finance
- Project Execution and,
- Logistics/Operations sections

The administration section comprises of the Principal Partners and Consulting Partners. In this section, we also have the Logistics/Operations department.

The Principal Partners have the responsibility of ensuring the general well-being of the organization. They are involved in corporate affairs, budgeting and financing. In other words, they are saddled with the general running of the business of the organization in all ramifications. Though they are qualified professionals in their fields, they work with the various consulting partners to ensure strict compliance to professional ethics whether in the design or execution stages of all projects.

The Consulting Partners work with the principal partners as the case may warrant in the design and execution of every project. They provide expert advice as well as serve as checks and balances on the activities of the principal partners on every project. They are expected to go on site visits at regular intervals to ensure strict compliance to laid-out work schedules and specifications.

The Logistics/Operations department is saddled with the responsibility of ensuring the running of the various sites in terms of prompt delivery of men and materials. This means that all issues relating to supply and delivery is handled by this section. This department has an Administration Manager who oversees all matters relating to staff and client relations.

Book-keeping, budget control and statement of accounts is under the purview of the Finance section. All matters of cash flow (in and out), salaries, wages and commissions are handled in this section. Also matters of financing that does not require the attention of the principal partners are handled by the head of the finance section.

AUDITORS' REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of Boutrose Technics Limited which comprise the Statement of Financial position as at December 31, 2017 and the Statement of Comprehensive Income.

Directors' Responsibility for the Financial Statement

The Directors are responsible for the preparation and fair presentation of these financial statements in accordance with Statements of Accounting Standards applicable in Nigeria and in the manner required by the Companies and Allied Matters Act of Nigeria. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standard on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our unqualified audit opinion in the manner required by the Companies and Allied Matters Act and Statements of Accounting Standards applicable in Nigeria.

Opinion

In our opinion, the financial statements give a true and fair view of the state of affairs of Boutrose Technics Limited as at December 31, 2017 and of its profit and Cashflow for the period ended in the manner required by the Companies and Allied Matters Act 1990.

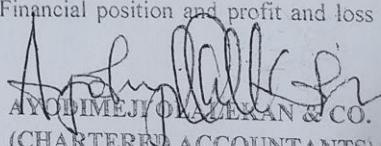

Report on Other Legal and Regulatory Requirements

Compliance with the requirements of Schedule 6 of the Companies and Allied Matters Act of Nigeria.
In our opinion, proper books of account have been kept by the Company, so far as appears from our examination of those books and the Company's Statement of Financial position and profit and loss account are in agreement with these books of accounts.

REPORT AND AUDITED FINANCIAL STATEMENT FOR THE YEAR ENDED DECEMBER 31, 2017

Accounting policies and explanatory notes to the financial statements for the PERIOD ended
31-Mar-17

1. General information

BOUTROSE TECHNICS LIMITED is a limited company incorporated in Nigeria. Their principal business activities are Engineering Services and Contract and the registered office is situated at B31 Galadima 3, off Airport Road, Ilorin Kwara State.

2. Basis of preparation and accounting policies

These financial statements have been prepared in accordance with the International Financial Reporting Standard for Small and Medium-sized Entities issued by the International Accounting Standards Board. They are presented in the currency units of Nigeria.

Property, plant and equipment

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Depreciation is charged so as to allocate the cost of assets less their residual values over their estimated useful lives, using the straight-line method. The following rates are used for the depreciation of property, plant and equipment:

Land & Buildings	0.00%
Plant & equipment	0%
Furniture & fixtures	5%
Motor Vehicles	0.0%

If there is an indication that there has been a significant change in depreciation rate, useful life or residual value of an asset, the depreciation of that asset is revised accordingly to reflect the new expectations.

Dear Sir,

VALUE ADDED TAX REGISTRATION

Further to your submission of registration form for the above, please be informed that your Identification Number as a collection agent is **ILV100021366985**

Please quote this number in all correspondence with this office and also on your sales invoices. You are therefore under obligation to file monthly returns to this office.

Consequently offences ranging from furnishing of false information/documents, fraudulent, evasion of VAT, un-notified change of address, failure to file proper records and account, failure to collect VAT, failure to file monthly returns, failure to remit, etc. attract various penalties in accordance with part V of the Decree.

Similarly, Section 35 (1) part VI empowers and authorizes Revenue officers to carry out inspection, compliance and monitoring on all companies. Therefore all cases of irregularity or nil returns may warrant full scale Audit or Special Investigation in accordance with Tax Laws.

I congratulate you on your registration and wish you successful business in the years ahead.

Yours Faithfully,

MAHE A.M

Tax Controller

Date:

Dear Engr. Ajayi,

RE: PROPOSAL/QUOTATION FOR GEOTECHNICAL INVESTIGATION AND HYDROLOGICAL STUDIES FOR THE PROPOSED PEDESTRIAN BRIDGE AT A STREAM CROSSING IN KETERE VILLAGE, MORO L.G.A. KWARA STATE

The Technical Committee on the above named project met on Wednesday 15th February, 2017, and has approved your proposal to carry out a deep sub-oil investigation and hydrological studies of the site. The committee also approved the sum of Two hundred and Thirty Thousand Naira only (₦230,000) for the investigation.

We hope the work will be given your speedy attention as we hope to make good progress before the raining season commences.

It is our prayer that the Lord will grant you the needed wisdom to accomplish this task.

Thanks and God bless.

Yours faithfully,

Mr. Thomas A. Oyeniyi
Church Secretary
